

Integrated Payables

63%

of payment fraud was with check payments.¹

84%

of organizations cite quicker payment/better cash flow as a primary benefit for sending electronic payments.²

Simplify your payables process with our web-based platform that can consolidate all your payment types into a single file feed. Easily set up and track payments to vendors and increase your cash flow visibility.

Our Integrated Payables platform supports the following:

Check print and mail, ACH, batch wires, Virtual Card, vendor enrollment and vendor management

Your company benefits by:

- Streamlining the process to execute payments as check, ACH, wire or Virtual Card.
- Reducing costs with internal labor, printing and mailing checks.
- Increasing revenue by converting check transactions to card transactions for rebate eligibility.
- Mitigating fraud and risk by implementing controls including submit, review and release capability.
- Improving the vendor enrollment process through comprehensive onboarding.
- Ongoing technical support for your accounts.

Contact your Treasury Management Advisor to learn more about how you can benefit from Integrated Payables.
